***Response to Amendment***

The following is in response to the amendment filed on July 6, 2005.

***Allowable Subject Matter***

Claims 1 and 4-15 are allowed.

The following is a statement of reasons for the indication of allowable subject matter:

Claims 1, 4, 8-10, 12, and 13 are allowed, because the prior art does not disclose or suggest an arrangement for measuring properties of a moving web that includes at least an unmoving plane-like web support surface extending over the whole width of the web and having an opening therein that also extends over the whole width of the web through which measuring means are arranged.

Claims 5-7 are allowed, because the prior art does not disclose or suggest an arrangement for measuring properties of a moving web that includes at least an unmoving plane-like support surface extending over the whole width of the web that supports the web in a non-contact manner and having an opening therein through which measuring means are arranged.

Claim 11 is allowed, because the prior art does not disclose or suggest an arrangement for measuring properties of a moving web that includes at least an unmoving plane-like support surface extending over the whole width of the web and having an opening therein through which measuring means comprising at least one transmitter and at least one receiver are arranged.

Claims 14-15 are allowed, because the prior art does not disclose or suggest an arrangement for measuring properties of a moving web that includes at least an unmoving plane-like support surface extending over the whole width of the web and having an opening therein

through which measuring means are arranged, whereby the opening is at least two successive openings in the web travel direction.

Allowable subject matter was indicated previously.

***Response to Arguments***

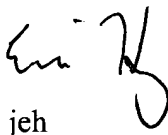

Applicant's remarks in response to the office action of February 14, 2005 have been considered. The amendments to the claims have overcome the objections to claims 9 and 10 set forth previously, and have overcome all rejections set forth previously based on Lippke (US 3,713,966), Typpo (US 4,789,431), Gotchel (US 4,311,037).
